EXPERIENCE

Senior UX Designer, ConveGenius.AI · Noida Sep 2025 – Present

- Direct design for 4 government education products deployed across 6 Indian states, spanning teacher entitlements, holistic assessment and multilingual AI assistance for 1.2M users.
- Built the HPC design system on a three-layer token architecture (primitive → semantic → component) with Zag.js state machines, published to npm with Nextra docs and adopted across React, Vue and Solid
- Designed a career counselling assistant that guides students through streams, entrance pathways and scholarships in 2 languages, reaching 120K learners across government schools.

Associate UX Designer, Samagra · New Delhi Jan 2023 – Aug 2025

- Designed Bharat SahAIyak, a multilingual conversational assistant for government service delivery since acquired into the Krutrim-Ola stack, handling 3.5M citizen conversations across 8 languages.
- Redesigned PUCAR court e-filing end to end with AI-assisted OCR, upfront document parsing and split-screen review, reducing filing time from 40 min to 12 min for 850 advocates.
- Ran on-ground research across 5 states and 11 districts including Kangra and Dharamshala, converting field findings into the Holistic Progress Card persona model that shipped to 45,000 teachers.
- Delivered Kumbh SahAI'yak UI under a hard event deadline, serving 1.1M pilgrims across 5 languages at peak.

UX Designer (part-time), IQ-Line · New Delhi Apr 2025 – Sep 2025

- Led development and implementation of a token-based design system, improving consistency and scalability across multiple platforms.
- Led the UI redesign of a Laboratory Information Management System, enhancing usability and optimising technician workflows.
- Designed and developed the interface for a new blood sample transfer system, improving tracking and management of critical medical samples.
- Coordinated with healthcare professionals to gather insights and define requirements, ensuring alignment with medical standards and user needs.

SELECTED WORK

- PUCAR — court e-filing design system. AI-assisted OCR and split-screen review for advocates filing under time pressure. [\[case study\]](#)
- Bharat SahAIyak — multilingual AI assistant PRD. Conversational service delivery for low-bandwidth, low-literacy contexts. [\[case study\]](#)
- HPC Design System. Cross-framework token and state-machine system, 600 weekly downloads. [\[npm\]](#) [\[docs\]](#)

SPEAKING

“AI in Governance” — The Other Interface, Bengaluru, 2025

EDUCATION

JSS Academy of Technical Education, Noida — B.Tech, Computer Science · 8.09 CGPA · 2022
